The Opal Range, a coast product, and the best steel range for the money.—Buren & Hamilton.

The high school boys who are members of the Julius Caesar club, a secret society organized contrary to the school laws, decided last evening at a meeting held at the high school, in a conference with the school directors, to comply with the law. In order to do this, it was necessary to either drop the society, or take in a faculty member. They decided to take the latter course, and accordingly elected William F. Murphy of the faculty, a member of the school law which provides, plainly that all school societies must have at least one faculty member. The Julius Caesar society, with its faculty member, is now in good standing, the same as the German society, the Sukpoh and other organizations in which a faculty member attends all meetings. This is the final chapter of an attempt to form a secret society in the high school.

Don't buy a range until you have seen the Opal. The biggest value in Salem.—Buren & Hamilton.
